- **Technoplanet Classes (21st May onwards)**

Technoplanet is redefining fundamentals of education and adding an extra dimension by establishing Technoplanet Labs (TPL) in schools. The objective of this initiative is to foster curiosity, creativity, and imagination in young minds; and inculcate skills such as design mindset, computational thinking, adaptive learning, physical computing etc.

Technoplanet establishes makers-space where young minds can give shape to their ideas through hands on do-it-yourself mode, and learn innovation skills. Young children will get a chance to work with tools and equipment to understand the concepts of CS-STEAM (Science, Technology, Engineering, Arts, and Math). TPL contains educational and learning 'do it yourself' kits, materials, and equipment on – science, electronics, robotics, wood working, architecture, aero-modelling, micro-controller boards, sensors, mechanical, programming.

SENIOR CAMP (Classes VI- XI)			
PROJECT	DURATION	FEES	DESCRIPTION
Solar Gadgets*	2 days	Rs. 1600	Here student will learn to use solar panel and will be able to design their own solar charging device for their mobile phones.
Electronics & Sensors*	2 days	Rs. 1600	It is a unique, hands-on electronics workshop for children. In the workshop participants solder electronic components onto a self-designed circuit boards to create an electronic burglar alarm and automatic stair case light.
Architecture Engineering*	3 days	Rs. 1700	Architecture engineering provides young people with hands on learning experiences in the field of architecture, design, engineering and urban planning. They will be learning to use a 3D modelling software to sketch their ideas in virtual environment and then constructing it using with the building material and finally taking their designs to home.

Note : Minimum 10 student required to conduct the classes.

- **Theatre Classes (21st May- 8th June)**

The classes would be conducted by Theatre Expert Mr. Karan Arora and the cost for the same would be Rs. 3000/- per student.
