Editorial

"School bells are ringing loud and clear; break is over, school is here." - Winifred C. Marshal

Reopening of schools has caused a range of emotions in children as well as parents. We all are aware that the time gone by has caused major disruptions to daily life and the children are also feeling these changes deeply. So, when returning to school, some children are very happy and excited while others are anxious and frightened. To deal this situation in the best possible way, we would like to share some tips with which you can help your children sail through these complicated emotions that they might face while going back to school and ease them into the new normal.

- They can be made at ease by having an open conversation about what it is that's worrying them and letting them know that it's natural to feel anxious.
- ➤ Children may also find it difficult being physically distanced from friends and teachers while at school they can be encouraged to think about other ways to bond and stay connected.
- Reassure children about safety measures as washing their hands at regular intervals with soap and coughing or sneezing into their elbow.
- ➤ Remind children about the positives that they will be able to see their friends and teachers and continue learning new things.
- ➤ Motivate them to wear masks.
- Ask them to tell the teacher immediately if they start to feel like they have a fever or cough.
- ➤ It's important to be calm and proactive in your conversations with children check in with them to see how they are doing.
- As children often take their emotional cues from the key adults in their lives including parents and teachers it is important that we manage our own emotions well and remain calm, listen to children's concerns, speak kindly and reassure them.

ONLINE SESSIONS AND WEBINARS

MOTHER DAUGHTER WORKSHOP (MENSTRUAL HYGIENE)

"A daughter is someone you laugh with, dream with, and love with all your heart." – Unknown

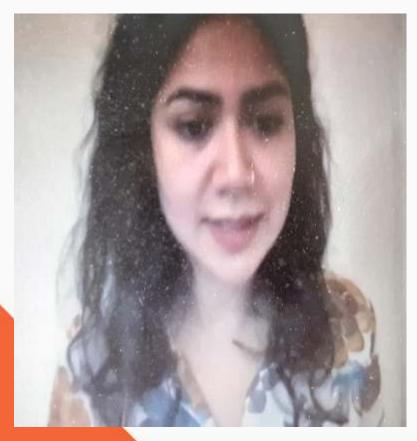

Mother Daughter bond is one of the strongest bonds that we know and to celebrate this bond further, an online 'Mother Daughter Workshop' was organised for all the loving mothers of the beautiful girls of class V on 18th September 21 from 10:00am to 11:30am. The topic of the workshop was 'Menstrual Hygiene'. The resource person for the same was Ms Ankita, CSR Executive, Unicharm, India. The session commenced with the introduction of the topic 'Menstrual Hygiene' followed by a brief discussion about 'Unicharm'. She further apprised everyone with the meaning of periods, different stages of adolescence and related behaviour. Ms Ankita also touched the sensitive issues related to the physical changes in girls, mood swings and reproductive phase in women. She concluded the session by answering the queries of the participants.

CELEBRATING PARENTHOOD

On September18th, a very thought-provoking session was arranged for the parents of students from class 3 by the name of 'Celebrating Parenthood'. The purpose of the session was to help parents accept and overcome the challenges faced while parenting during these difficult times. The esteemed resource person Ms. Aleena Ali ma'am, an Art Therapist shared tips to develop a healthy parent-child relationship. Through these turbulent times, there has been a transition in the teaching -learning process. Children have been compelled to take online classes. This forced change has led to children spending all their time at home. Children have immense curiosity and tremendous inbuilt energy, which needs channelizing. Adults are able to rationalize and think but it is difficult for the little ones to understand it all. The parents are trying their best to engage the child in myriad activities, yet their curiosity remains unquenched. It has grown increasingly difficult for the parents to juggle work and the quality time they spend with their children. Ma'am shared that a change in the thought process of the parents is need of the hour. Loads of reading, writing clay modelling and engaging the child in activities done at home will bring in a sense of recognition in a child. The child would understand his self-worth leading to normalised behaviour. He will become calmer and more settled.

INSPIRE PROGRAM

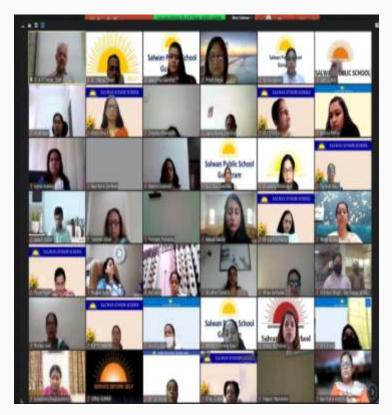

"Without love in the heart, we humans have to struggle to become true human beings." - Daaji

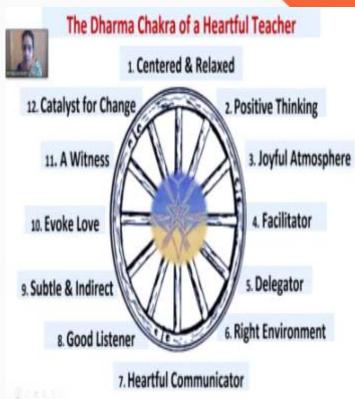

An enlightening quote by Daaji is best to describe the purpose of the workshop conducted by Heartfulness Education Trust. The main aim of this workshop was to know about the power of thoughts and regulation of the mind with the help of Heartfulness Relaxation & Meditation.

The resource person, Dr. A. P Tomar, very beautifully described the meaning of yoga i.e., union with perfection, with inner potential. To use our inner potential, our inner perfection we need to evolve at a higher level. We are evolved physically, structurally, socially, mentally and now, we are at that juncture where the mental evolution of human beings is leading towards its destruction.

To begin with the second session of the day, the resource person, Ms. Nirmala Sundaram pooled in about the five major essentials of Holistic Development which means moving in the direction of the centre called Adhyatmik. Holistic development of a child happens when spiritual development domain is also catered to. As heartful educators, we should celebrate diversity among children, identify their dominant strengths and work on developing it moving from VAK(Visual, Auditory, Kinesthetic) to VIKAS (Visual, Intuitive, Kinesthetic, Auditory and Spiritual). The session concluded with a beautiful slide showing how we, as heartful educators, need to connect to our students' hearts through humility, wisdom and compassion and take them towards Holistic Development by facilitating the process through 5Es(i.e. Engage, Explore, Experience, Express and Excel)and Inquiry Based Learning.

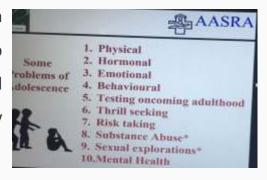

WORKSHOP ON ADOLESCENCE

A workshop on 'Adolescence' was conducted by Dr Arshiya Sethi for the teachers of the Primary Wing. The workshop commenced with the discussion of the meaning of the word adolescence. She briefed about the various problems faced by the children in this age and how to handle them effectively.

SESSION ON STUDY SKILLS FOR CLASS X STUDENTS

The principal ma'am addressed class X students on 23 Sep and 24 Sep, 21 on study skills. She advised the students to regularly practice, follow time management and take care of their health both physical and mental. She also mentioned the importance of taking breaks at regular intervals and meditation to improve concentration and focus. She motivated the students to study hard and study smart.

BEING CHILD OF PARENTS, WHO ARE DOCTORS

In those difficult times, when the terror of Coronavirus Pandemic was at its peak and life was not so easy for anyone. But, for the warriors, i.e. doctors, nurses, ambulance drivers, all other hospital staff and their family members, it was one of the most difficult times. So, I am going to tell you about my life in the times of Covid-19 as a child of parents who are doctors.

I had many difficulties in those tough times. The spread of Covid-19 (Virus was not so fast two months earlier, but suddenly it began spreading as a wildfire. My parents used to go to Covid-19 wards and tend to the patients who were infected with Coronavirus disease. Many of their colleagues and their family members were tested positive for Covid-19. So, my parents decided that it was no longer safe for me and my younger sister to stay with them and they took us to our grandparent's house. Me and my little sister lived with our grandparents for a long time and we didn't meet our parents for about 3 weeks. I did all my work alone and I hardly ever sought guidance from my parents because they were busy in the hospital all day and all night. Although we could communicate by calling each other but it wass not the same as meeting and hugging them in person. Life may be difficult, but I am proud to call myself a child of parents who are doctors.

BOOK REVIEW

The Greatest Children's Stories written by Ms. Stuti Agarwal 'Reading is to the mind what exercise is to the body'

I am Trivid Nandal of class V from Salwan Public School, Gurugram. Today, I am going to reflect upon the book The Greatest Children's Stories' written by Ms. Stuti Agarwal. Ms Stuti is a writer, home chef and an artist. She wants to create great Indian stories for today's children. Her famous story books are Young Kalam, The Adventures of Tootsie Lama, Grand Pa's suitcase of stories and many more. The vocabulary used is easy and simple to understand. The language is concrete and specific. There is a remarkable fusion of thoughts and feelings. Though all the stories are very interesting and described in a wonderful manner, the story which has caught my attention is India's first female blade runner.

This story is about a girl named Kiran who lost her leg in an incident. It was 24 December 2011 when she wanted to celebrate her 25th birthday with her family. She had to travel in a train from Hyderabad to Faridabad. After long hours of journey when she was waiting patiently on the seat near the door for her station. Two young boys pulled her bag and dragged her all the way to the door and down onto the track. As a result, the moving train ran over her left leg. She was immediately taken to the hospital with the help of passengers and station police. But unfortunately, she lost her one leg and was helpless.

She could not go out or meet her friends for a few months. But she didn't lose hope. She faced all the challenges boldly. She proved how impossible could be made possible by dint of hard work, courage and determination. With the help of her will power, she not only participated in a couple of Marathons, but also in Paralympics games. She brought name & fame for the country. I got really inspired a lot after reading this story. One thing that I learnt from this story is never to lose hope and give up in times of difficulties.

BE HEALTHY BE WEALTHY

Be healthy be wealthy, don't eat junk,

Else you will become a fat trunk.

Eat fruit and use jute,

So that you become lovely,

Don'teat cake,

And don't drink a shake,

So that you don't resemble a rake.

Do exercise,

So that you become wise,

Don't watch phone,

Else you will be alone in the zone.

Walk more, talk more,

Keep yourself active,

So that you can become attractive.

Get enough sleep,

So that you don't lose your sheep,

Don't be late,

So that you can concentrate,

Else you will not do something great.

Be physical,

And drive some cycle,

Don't be lazy,

Or else you will go crazy.

Don't eat too much salt,

Or you will make a fault,

Eatlot of grain,

To sharp your brain.

Be healthy be wealthy, don't eat junk,

Else you will become a fat trunk.

They became raged,

When Athena shone bright;

For what they remember her,

They did bow down in fright.

Role of libraries in the pandemic

been an essential part of the learning environment and librarians are finding creative ways to keep students-excited about reading during these unprecedented times by promoting digital access to online materials like ebooks, audio books, and other online resources.

Library professionals are playing various integrated and multiple roles beyond their traditional job in this pandemic. Librarians worldwide now understand the need to change their roles from traditional practice to multidimensional roles. Hence they are providing the e-resources with the help of modern technologies. They have a versatile role to meet the demand and expectations of societies, organisations. institutions, libraries, etc. Blended at home and in school, with most of the learners choosing only distance learning. The librarian must create and make available appropriate instructional videos and other online resources to students. Also, the librarians should provide educators with targeted videos or resource lists highlighting key databases or electronic resources appropriate for their curriculum.

The students can be encouraged to read books by organising online library activities including online quiz, virtual book fair, virtual author talk, reading challenges, and celebration of national reading month. During the ongoing pandemic, a digital platform is the best way to serve the whole community. With educational institutions shut due to the lockdown, the National

कमार। मातृभाषा हिंदी के प्रचार-प्रसार के लिए प्रतिवर्ध हिंदी पखबाडे का आयोजन सरकारी व गैर सरकारी कार्यालयों तथा शिक्षण संस्थानों में भी किया जाता रहा है। इस दौरान विभिन्न कार्यशालाओं, सेमीनारों का आयोजन किया जाता रहा है। इन सभी के माध्यम से हिंदी को बढावा देने व प्रशासन के सभी कार्य हिंदी में करने के लिए भी पोल्महित किया जाता है। इसी क्रम में सलवान पश्लिक स्कल में हिंदी भाषा उत्सव का आयोजन किया गया, जिसके ताल कथा पहली से 10वीं तक निरंतर हिंदी भाषा से संबंधित गतिविधियां कराई जा रही हैं। विद्यालय की प्रधानाचार्या रश्मि मलिक व हिंदी विभागाध्यक्ष डा. सविता उपाध्याय ने बताया कि इस उत्सव के दौरान किस्सागोई, हस्य कविता पाट, विज्ञापन निर्माण, वाद-विवाद, आयोजन किया गया, जिसमें विभिन्न कक्षाओं के लात्रों ने भाग

दौरान जाने-माने इस साहित्यकार, रंगमंच के कलाकारों व कवियों को आमंत्रित किया गया। दुस्दर्शन के छ. अमरनाथ अमर, काजल सरी जैसी रंगकर्मियाँ ने अपने विचारों से

उनसे आग्रह किया कि अपने दैनिक जीवन में राष्ट्रभाषा हिंदी को पर्याम महत्व दें। साहित्यकार अरबिंद कमार सिंह ने भी अपने अनुभव छात्रों से साझा किए। उनका कहना है कि हिंदी एक मजबूत और ताकतवर भाषा है, जिसे कोई भी आगे बढ़ने से नहीं रोक सकता। क्योंकि भाषा तो एक नदी के समान होती है जो निरंतर आगे बढती जाती है। अन्य वकाओं ने भी कहा कि यह की महता कभी भी कम नहीं हो सकती। चाहे हम कितना भी आधनिकरण से प्रभावित क्यों न
